OTHER FEATURES

DIRECT ENVIRONMENT

Centrally located in Le Marche region.

INTRODUCTION

The property is a traditional Italian Villa in the southern hills of Le Marche, with habitable annex. Perfectly placed in a private setting, yet close to several historic towns and the beaches on the Adriatic coast.

Completely rebuilt during the years 2008-2010, maintaining the ancient style such as barrel-vaulted ceilings, wooden beams and cotto floors, adding precious design elements to the naturally spacious and bright interiors.

Large porch, facing the pool completes the pictures for the perfect al fresco dining.

The garden is all fenced in and the surroundings are characterized by typical fields of that area of Le Marche.

The fabulous location also allows you to easily explore the vineyards, countryside, coastline and local towns of this attractive region.

NOTES

More information and detailed photos are available upon sales inquiry. Current photos are representative for the countryside area of Le Marche, where the property is located.
