## INTRODUCTION

---

Montelago is the classic farmhouse dating back to 1800, typical of the countryside around Lake Trasimeno. Surrounded by olive trees and a hilly environment, with a skilful renovation, it can become a large property in a typical setting of the Umbrian countryside. The views from Montelago are very open: there is Magione on one side, and the small village of Montecolognola in the distance, while from the top of the land you can also get a glimpse Lake Trasimeno. The property is located in a private area surrounded by green, woods and beautiful natural setting. Its position is strategic as it enjoys great privacy. The property consists of a main building of about 430 square meters, on three levels and an adjoining ruin of about 140 square meters. The farmhouse is sold with 7.5 hectares of land. Montelago has on premises more than 500 plants of olive trees, some are even centenary plants and the production of excellent olive oil can be pursued.
