INTRODUCTION

Located in a quiet area of the countryside, not far from Montecastello di Vibio, Pianozze is the classic example of a country house, surrounded by the most verdant nature, with lots of peace, but also not far from some towns. The view of Fratta Todina opens up from different corners of the property. The park all around is made of mature trees and different corners of peace and greenery. There is also a part of land with olive trees, and a small field which, if desired, can be used for a vegetable garden and fruit trees. Pianozze is a country house on which to conceive a beautiful renovation and modernization project. Although all the systems are present, and complete with swimming pool, it must be considered a property to be given a completely new life. SpecialUmbria can support you by creating a home in a splendid location, but with all the most modern systems, new materials and also a new division of spaces.

The mentioned “starting from EUR 1,8 mio” price comprises an estimate of the total cost to incur in a project to come to a turn-key delivery of the property: construction (renovation, new build or restoration pending the situation) included the building’s structure where necessary as well as all finishings including systems and swimming pool, landscaping and planting of garden, technical fees (e.g. architect, engineer, surveyor), project & design management by SpecialUmbria, all interior and exterior furniture and

decorations.
