## INTRODUCTION

Podere Vigneto offers breathtaking panoramic views over more than 12 hectares of private land just 10km from Orvieto. Formerly a convent that dates back to the 17th century, the property's use has changed several times over the years.

The current renovation began in 2000, the pool was redone in 2021 and the glass veranda was built in 2022. Currently divided into six units of different sizes, the building could also easily be converted back into a single house. One of the units is as yet unfinished and includes the ancient mill and cellars where previously wine and oil were produced. There is a small chapel on the estate and a couple of outbuildings that could also be developed into living space.

Surrounded by an organic olive grove and thriving vineyards, the estate is agriculturally productive as

well as a place of natural beauty, peace and quiet.

The property would suit those looking for an easily accessible rural retreat that offers vast potential for customisation and development. Its close proximity to the historic town of Orvieto adds to its appeal.

## LAYOUT

### BEDROOMS

The property's current seven bedrooms are currently part of separate units. More bedrooms may be created in the to be finished areas.

### BATHROOMS

Currently there are seven bathrooms. More bathrooms may be created in the to be finished areas.

### KITCHEN

Each unit has a separate kitchen or a corner kitchen. If the buyer were to open up the floors and finish the areas that haven't yet been renovated, it would be possible to create a large kitchen with a pantry and a back kitchen, too.

### LIVINGROOM

The main living room is in the new glass-fronted veranda and includes a beautiful ceramic Swedish-style heating stove. If the buyer were to open up the space, it would be possible to have a bigger living room or different ones opening onto other views.

### OTHER ROOMS

There are several agricultural outbuildings, as well as a cellar.

## FACILITIES

### OUTSIDE

The property sits on the brow of hill and, as such, has wonderful views. Approached by a farm lane

through the olive grove which produces organic oil and vines surround the property on two sides. A large garden surrounds the property with mature trees and lawn. The lined pool was renovated in 2021 and it would be easy to add heating to it.

## TECHNICAL

Water comes from a private well with a filter and softener. There is electricity, LPG gas and septic tank with natural dispersion for sewage. Air conditioning is available in parts of the building. The new windows are double-glazed with mosquito nets.
