## INTRODUCTION

Poggiovento is a 19th century farmhouse built of the warm red brick typical of the area around Lake Trasimeno. The property occupies a commanding position in the rolling landscape of Italy's heartland, surrounded by fields, hills and olive groves and the lake in the near distance. The panoramic view is sensational.

The property is being sold with an approved restoration permit, allowing the current footprint of

approximately 440sqm, plus 100sqm of extra building allowance. It is also possible to restore the two annexes of 45 and 85 sqm. There is also an extra ruin that adds further 130 sqm of restorable space, but the maximum that can be achieved by the restoration of annexes turning into habitable space is maximum 200 sqm. The remaining ones can be used for technical area or garage. This gives the new owner considerable scope concerning the internal layout, and permission has also been given for a pool, terrace(s), landscaping and a surrounding fence with a gate.

This is an exciting opportunity to breathe new life into an old building characterised by exposed brick floors and wooden ceiling beams, enabling the buyer to design a property that suits their unique requirements.

**The mentioned "starting from EUR 2.1 mio" price comprises an estimate of the total cost to incur in a project to come to a turn-key delivery of the property: purchase of land and current buildings, construction (renovation, new build or restoration pending the situation) included the building's structure where necessary as well as all finishings including systems and swimming pool, landscaping and planting of garden, technical fees (e.g. architect, engineer, surveyor), project & design management by SpecialUmbria, all interior and exterior furniture and decorations.**

## FACILITIES

---

### OUTSIDE

The Municipality will give permission for a pool to be built upon the presentation of a project at a maximum distance of 30 mt from the main house. Also terrace(s), garden and grounds can be landscaped as desired, in keeping with the property's location. There is permission to install a gate and fence.

## TECHNICAL

Electricity needs to be hooked up;  
Water is not present yet at the property, so it has to be connected to mains water; also a well can be dugged.

A further sewage system and LPG gas tank can be installed.

All the other technical equipments will be decided upon the project.

Underfloor heating and cooling system, digging of well, installation of solar panels, are calculated in the total cost of the project.

## ENERGY

Class to be established upon the start of the project for finishing

## OTHER FEATURES

### DIRECT ENVIRONMENT

The property is surrounded by well-managed farmland and is close to several small towns. Gioiella is a 4 minutes car drive away and offers all basic amenities.
