INTRODUCTION

Prugneto is a very peculiar restoration project involving a typical farmhouse and two annexes. Very easy to reach, with an amazing historical classical villa in the view and surrounded by sweet rolling hills, and fields. The main house dates back to 1600, and further uses of the farmhouse are in the 30's until the 60's when the last farmers used the property.

One of the features that immediately struck us when we visited this property, is the ease of access, combined with the beauty of the surrounding environment. Not only the famous Villa del Cardinale rises majestically in the distance, with its view framed by the big trees present on premises of

Prugneto, but also the road to arrive, with its vineyards, its fields, really make this place one of a kind. With its square meters, and the conformation of the land, Prugneto is an invitation to create your own dream home.

The project involves the use of 470 smq approximately with the possibility to add a further 100 sqm based on current regulation. It is possible to build a pool.

The whole property boasts also 2 hectares and a half of woodland in which several panoramic paths are present and to enjoy.

The mentioned “starting from EUR 1,730 mio” price comprises an estimate of the total cost to incur in a project to come to a turn-key delivery of the property: construction (renovation, new build or restoration pending the situation) included the building’s structure where necessary as well as all finishings including systems and swimming pool, landscaping and planting of garden, technical fees (e.g. architect, engineer, surveyor), project & design management by SpecialUmbria, all interior and exterior furniture and decorations.

LAYOUT

FACILITIES

OUTSIDE

The council will allow the construction of a swimming pool. During a finishing project, terraces and landscaping can be decided.

TECHNICAL

Electricity is present: it has been connected to the main electrical line and installed the meter;
Water is present: it has been connected to main water and a well can be digged.
Sewage system: it is installed a septic tank.
LPG tank : we are currently collecting information.
All the other technical equipments will be decided

upon the project.

Underfloor heating and cooling system, digging of well, installation of solar panels, are calculated in the total cost of the project.

ENERGY

Class to be established upon the start of the project for finishing

OTHER FEATURES

DIRECT ENVIRONMENT

With amazing historical villa in the view and only 250 mt of white road, Prugneto is not hisolated but privacy is 100% granted.

PROPERTY MANAGEMENT

SpecialUmbria can look after every step from acquisition to full finishing/completion, interior and exterior design. Upon completion SpecialUmbria can offer full property management services all year through for this property, as well as renting out if desired. You can find more information in the separate section 'Property Services' on this website.

NOTES

The asking price refers to the acquisition of the property in the current condition. The estimate of the cost of the turn-key project includes all the delivery of works and materials including finishing and systems, all fees from technicians and project management fee from SpecialUmbria.
